

Massive Palestine Walk for Freedom 2025 in Lenasia

The dawn of 5 October 2025 will be an overwhelming experience for South Africa. All persons of all races, all colours, all classes, all sizes and all shapes will be gathering and walking, to endorse global human rights for accommodation, food, education, justice and other values. This is expected to be the largest Walk for Freedom for humanity

in general and for Palestine in particular. Do join the effort to send a clear message to the colonialists and oppressors of the world. The carnage amidst the genocide being perpetrated by the Israeli and other Western regimes in full view of the global community leaves humanity in awe. No proponent of human rights and human dignity should be standing by while

humanity witnesses a heinous crime being committed against them. It really does appear as though, in the form of the United Nations, every state of the world is complicit in the commitment of the Palestinian genocide. The levels of murder, starvation, destruction of residential and commercial property, elimination of established infrastructure and depopulation are but

unprecedented crimes against humanity. In addition, peace brokers turn out to be biased and in fact facilitate the crime of genocide. While the Palestinian Catastrophe goes on revealing the nature of the horrendous genocide, Lenasia is busy preparing itself for the annual PSA Walk for Freedom. The Walk will be hosted at Rose Park on Sunday 5 October 2025 at 08:00. It is envisaged that Lenasia

By Ismail Suliman Mahomed

will really come alive with most of the local residents and visitors from around South Africa converging on

Rose Park. The PSA and PSA Youth League may also be hosting persons from the areas experiencing a

blood bath and genocide. This year Rose Park in Lenasia will be buzzing with a large variety of Pop-up stalls, community organizations, delicious foods and Palestine paraphernalia. Important Guest Speakers and Palestinian visitors are also expected to be engaged in vibrant Community Dialogue. Most certainly the attention of one and all present will be focused on but only one thing, the genocide. Various aspects of this vicious act of humanity against humanity will be talked about, thought about and deliberated on. In the minds of most people will be massacres of mothers, infants and the unborn; the destruction of homes, places of learning and civic infrastructure; starvation as a weapon of war when there is no war; bombing of hospitals and the assassination of health workers and journalists; the displacement of an entire population; the deprivation of an entire people of water, electricity and other services. These are but some of the state-orchestrated crimes against humanity in desperation. Abdul Majeed of the PSA has announced an interesting new feature at the Walk for Freedom. This will be 'The Garden of Martyrs' which will feature the names and photographs of many a martyr of the Gaza - Palestine genocide. Visitors and participants are urged to visit the site on 5 October at Rose Park. Entry tickets to the Walk for Freedom will be available at the entrance to Frontline Hyper every weekend and on Saturday 4 October 2025 at Rose Park.

Eldorado Park Sees String of Arrests inSeptember Operations

September proved to be a busy month for crime prevention operations in Eldorado Park, with local police and Gauteng Traffic Wardens executing several successful arrests in connection with serious offences ranging from copper cable theft to illegal firearm possession. On the evening of Monday, 1 September, members of the Eldorado Park SAPS Crime Prevention Unit arrested a 49-year-old suspect on the Golden Highway near Union Road. Officers stopped a suspicious Beiben truck,

which upon inspection was found to be concealing large quantities of copper cable beneath scrap metal. The driver, who failed to provide valid documentation or permits, was detained. Eskom later confirmed the cables belonged to the utility. The man remains in custody and is expected to appear in court soon. Just days later, in the early hours of Thursday, 4 September, police made another breakthrough. During a night-long operation in Freedom Park, officers received intelligence about an individual en

route to purchase drugs while carrying an unlicensed firearm. A suspect matching the description was located and searched, leading to the recovery of a black 9mm pistol. The man, unable to provide a licence, was arrested and is currently awaiting court proceedings. A further arrest followed in the early hours of Saturday, 6 September, when SAPS members observed a suspicious individual dressed in black on Fontein Street, Old Eldorado Park. Attempting to flee, the man was pursued and apprehended. A search revealed another 9mm

firearm loaded with ammunition, for which no licence could be produced. The suspect appeared in Kliptown Court on Monday, 8 September. SAPS Station Commander Brigadier Maluleke praised the ongoing operations, reaffirming the station's commitment to eradicating crime through high-visibility policing and swift action. Authorities continue to encourage residents to report suspicious activity to assist in maintaining safety across Eldorado Park.

Residents of Eldorado Park are being called upon to help green the area and also plant fruit trees for sustainability. You can be among the 250 people expected to converge on Boundary Park in Dartmoor Street in Eldorado Park on Tuesday 23 September from 9.30 as Johannesburg City Parks and Zoo, in partnership with a local NPO, Go Green Go Clean, plant 1000 trees, and distribute 600 fruit trees. This will be the main event during Arbor Month by City Parks.

“We are honouring the great work that the community of Eldorado Park has achieved in transforming a derelict illegal dumping site into a humble green nook, providing a space of calm, wall murals from local artists and instilling pride in the face of poverty, unemployment, substance abuse and a sense of disillusionment in a community like Eldos. Eldorado Park, in the south of Joburg, is more often than not, described as a violent, neglected and a forgotten community in Joburg., City Parks said in a statement.

Go Green Go Clean, an environmental conservation organisation based in Eldorado Park has worked over many years in greening what was formerly an unkempt strip, prone to crime, muggings, and illegal activity. The space now adorns grass, a medicinal garden and images of heroes and heroines of the community.

Go Green Go Clean is a self-funded organisation with minimal capital to effectively run the organisation and is dependent on donations and local volunteers. Your participation is vital in showcasing the power of partnerships and greening disadvantaged neighbourhoods.

With Spring having arrived, bringing with it fresh beginnings and renewed hope across the city, which is believed to have the greatest number of trees of any city in the world.

Everywhere, trees are bursting into bloom, their leaves glowing with shades of green as the jacarandas prepare to lay clouds of purple everywhere next month.

Leading the City's greening efforts, JCPZ is calling on schools, businesses, and community groups to join a collective initiative to plant indigenous and fruit trees throughout September 2025.

“Trees play a vital role in improving air quality in Johannesburg, a city often challenged by traffic congestion and illegal burning of harmful substances. Indigenous trees not only reduce greenhouse gases but also support biodiversity, creating a healthier, greener urban environment,” City Parks said.

“Arbor Month is a reminder that the simple act of planting a tree is an investment in the future — one that will benefit Joburg for generations to come,” it said as it also lamented the challenge facing Joburg's status as the biggest human-made forest in the world, with an estimate of over 3.2 million trees.

“JCPZ is dealing with the ongoing illegal felling of these precious trees with an already ageing tree canopy. We're calling on everyone to be part of a tree revolution,” said Thanduxolo Mendrew, Managing Director of Johannesburg City Parks and Zoo.

Requests relating to emergency fallen trees/branches should be logged with the City of Johannesburg's call centre on (011) 375 5555 / 0860 56 2874 or alternatively e-mail joburgconnect@joburg.org.za. Tree emergencies include obstruction of streets, trees that have fallen onto properties or vehicles, or trees that have fallen onto the sidewalk, preventing the owner from entering or exiting their property.

The Independent Police Investigative Directorate (IPID) on 11 September 2025, re-arrested Sergeant Mandla Buthelezi of Eldorado Park at the Johannesburg High Court, where he was appearing in connection with the December 2024 murder of his girlfriend, Gauteng Crime Prevention Warden Chesnay Kepler.

According to IPID spokesperson Lizzy Suping, the arrest follows allegations that Buthelezi violated his bail conditions by intimidating key witnesses in the ongoing murder investigation. “The Sergeant’s actions undermine the integrity of the judicial process and pose a serious threat to witness safety. IPID takes these allegations very seriously,” said Suping.

Buthelezi will remain in custody at Moroka Police Station until his next court appearance, which has been scheduled for 11 October 2025 for pre-trial proceedings.
